

# WHAT SETS ORION APART?

From Grade R to 12, we have an age-appropriate **INTEGRATED APPROACH TO THERAPY** and a **TEAM AROUND EACH CHILD**.

*We believe in more than only just small classes and caring teachers. We understand the importance of early - and ongoing - intervention from a team of professionals who form part of our staff.*

## **Specialised Class Teacher**

Our teachers take the time to understand each individual child's needs, and to provide them with personalised support that they need.

## **Educational Psychologists**

All learners from Grade R - 12, have a linked Educational Psychologist, who run workshops for our learners, provide any needed individual therapeutic support; and carry out periodic psycho-educational, accommodations, and career assessments.

## **Occupational Therapists and Speech and Language Therapists**

From Grade R - 6, Occupational Therapy and Speech and Language Therapy interventions are integrated into the school timetable.

## **Remedial Therapists**

Our Grade 2 - 11 learners, who need remediation in the core curriculum areas, such as English, Maths, and Afrikaans, receive specialist Remedial Therapy.
